

JAVIER ARÉVALO.

SOFTWARE DEVELOPER — CLOUD & DEVOPS

Two internships so far: cloud consultancy at Axazure and mobile at Skiller Academy. Day to day that means C# against Dynamics 365, automating Azure workloads, and Kotlin on Android. I use AI tools to move faster and review everything they produce before it ships. I move to Denmark in September 2026 for a Computer Science degree, and I am open to work alongside my studies, either part-time or as an intern.

Madrid, Spain

EXPERIENCE

Cloud Developer — Internship

Mar — May 2026

[Axazure S.L.](#) · [Madrid](#)

- Wrote plugins and APIs in C# for Dynamics 365, deployed to client environments.
- Automated recurring Azure workloads so they run without anyone pressing a button.
- Built Customer Insights integrations inside a Microsoft consultancy delivering to live clients.

C# · Microsoft Azure · Dynamics 365 · Customer Insights · Automation

Software Developer — Internship

Mar — Jun 2025

[Skiller Academy S.L.](#) · [Madrid](#)

- Built features for a native Android app in Kotlin.
- Integrated third-party SDKs and shipped them with a small product team.

Kotlin · Android SDK

PROJECTS

ArtCenter

2025

An Android app for artistic disciplines — a browsable catalogue of techniques wrapped around a social feed where artists post their own work.

Kotlin · Jetpack Compose · MVVM · Hilt · Python · Flask · JWT · MySQL · Cloudinary

[Android app](#) → [REST API](#) →

Height-Adjustable Desk — ESP32 Controller

2025 · [In progress](#)

An ESP32 wired into a Flexispot desk so it changes height on a schedule, stops if something is in the way, and reports what it did.

C++ · ESP32 · FSM & ISR · PC817 Optocouplers · VL53L0X ToF · MQTT

FocusReef

2025

A productivity app where 25-minute focus blocks become tokens, and tokens buy fish for an aquarium that only grows if you actually work.

Kotlin · Android · NAS-hosted database · Time-series data [Repository](#) →

José Rodríguez — Filmmaker Portfolio

2026

A single-page portfolio for a professional Steadicam operator, built and deployed in under 48 hours.

AI-assisted build · GitHub Pages · Cloudflare · Code review

[joserodriguez.mov](#) →

EDUCATION

BSc in Computer Science

[University of Southern Denmark \(SDU\)](#) · [Vejle](#)

2026 —

Higher Degree — Multi-platform Application Development

[U-tad](#) · [Madrid](#)

2023 — 2025

SKILLS

CLOUD & MICROSOFT

Microsoft Azure, Dynamics 365, Customer Insights, GitHub Actions, Cloudflare

LANGUAGES

C# / .NET, Kotlin, Java, C++, Python, Swift, SQL / MySQL

MOBILE & EMBEDDED

Android SDK, iOS / Swift, ESP32, FSM / ISR design, sensors

AI-ASSISTED DELIVERY

Prompt engineering, review of generated code, prototyping

CERTIFICATIONS

AZURE FUNDAMENTALS (AZ-900)

Microsoft · 2026

PYTHON ESSENTIALS 1

Cisco

PYTHON FOR DATA SCIENCE & AI

IBM · Coursera

LANGUAGES

Spanish

Native

English

C1
